Project Title: Noah Kahan Website

I plan to build this as a multi page website about his life, music, and busyhead project. There will be a navigation bar to go between pages on the site. Pages will be full with different information from Wikipedia and from pictures from his albums and concerts.

- **Home Page/Introduction** – This will set the tone of the woodsy vibes of Noah Kahan and also have basic information about him to introduce the specific pages.
- **Early Career/BusyHead** - Starts about his first two albums, and where they started in his career. It also goes into his inspiration for these albums
- **Stick Season** - This album took off for him, so it will go over its songs and how the album changed his career
- **Current/The Great Divide -** This page will go over his most recent album and other works, including the Hunger Games song and his Netflix special
- **Busyhead Project** - This will go over his mental head activism through the busyhead project, and what it specific covers.
- **Sources** – this page will just list sources, including the Wikipedia page, as well as other sources for photography, and any other credits that need to be provided.
